

Participate as an exhibitor in the New Space Economy Congress 2023

Are you part of an innovative organization or space research and innovation centre? Do you want to **participate with an exhibitor** in the upcoming New Space Economy Congress and make your organization known to European agents in the space industry value chain?

This year's exhibitors' area will be located in the **Saló dels Lleons** at the Llotja de Mar. It will be possible to **communicate business activities, establish contacts and promote collaborations between organisations.**

Companies and entities wishing to have an exhibitor must submit the application for the selection process with a deadline of **22 September from 2023** to 12h.

What does participation include?

- The exhibitor space will consist of a 1.80-meter table and two chairs.
- The exhibitor spaces will have a stream connection and network via Wi-Fi.
- Visits from authorities and main speakers of the event to the exhibition area.
- The possibility of closing agendas with companies and students attending.

Businesses that have an exhibitor will not have to bear any costs except the costs associated with the movement, transport, and installation of content in their own space.

How can you participate?

To participate in the selection process, **make the application through the form enabled on the congress website before September 22, 2023** to 12h.

Next, we will contact you to ask you for the following information:

- **A brief description of the entity in Catalan and English (max. 100 words).** We may use this summary for Congressional broadcast and communication actions. It uses a language that is understanding and descriptive,

📅 22 i 23 de novembre

📍 La Llotja de Mar, Barcelona

- **File with the logo** that you want to appear on communication materials (in “trace” or high resolution format: Freehand, Illustrator, etc.). This will be the logo that will be used in your company's signalling in the exhibitor space.

By 25 October 2023 the result of the selection will be notified to all candidates.

What are the selection criteria?

Being a Catalan research and innovation organisation or centre working in the business segment of the space field. The selection committee made up of the organising bodies of the Congress will take into account:

- The level of innovation and originality of your company or centre's products, services or applications.
- The possibilities of internationalisation.
- The degree of maturity or implementation in the market of your products, services or applications.
- The possibilities of attraction and talent development.
