

Participate in the New Space Economy Congress 2023 Call for Space Talks

Would you like to share your ideas and knowledge on some subject relating to space or economy?

During this year's New Space Economy Congress Space Talks, industry professionals will be able to talk on the stage of the Consuls of the **Saló Cònsols at the Llotja de Mar** on space and economic issues, in a dissent and inspiring manner.

What approach should an exhibition take?

It can be **informative, scientific, or even humorous**, but without political connotations, and with language that is not offensive, discriminatory and understanding to all audiences.

This is not a commercial area, so the aim must not be to present the services or products of a company or institution.

How long can an exhibition last?

The duration may be **between 5 and 10 minutes** on the chosen topic, which must be interesting to the public, in English, at the **Saló dels Cònsols** de la Llotja de Mar. Within the allocated time slot, each speaker may decide to include a few minutes for public questions.

In the same way, each rapporteur may choose to project material supporting the exhibition, if you wish, following the indications provided by the organisation.

What are the suggested themes?

Then we suggest some themes. But there may be many more! Do not hesitate to present your idea to us!

- Space exploration.
- Global scientific and technological advances.
- New Space Economy Trends.

📅 22 i 23 de novembre

📍 La Llotja de Mar, Barcelona

- Business innovation and development.
- Applications based on data and satellite signals.
- Astronomy.
- Influential personalities of history.
- Space Ground.
- Space Ethics.
- Space Policy and Space Law.
- Talent and society.
- Entrepreneurship.
-

How can you participate?

To participate in the selection process, **send an email** to innovacio@cambrabcn.cat **by 29 September 2023 at 12:00**. It indicates in the case "Call for Space Talks at the Congress New Space Economy".

The following information must be included in the mail:

- **The title of the exhibition.**
- **A brief description of the topic of the exhibition in English (max. 100 words).** We may use this summary for congressional broadcast and communication actions. It uses simple and understanding language.
- **Your contact details.**

Before 27 October 2023 you will receive an answer as to whether you have been selected. At most, each applicant can submit two exhibition subject proposals.

What are the selection criteria?

The selection committee made up of the organising bodies of the Congress will take into account:

On the subject:

- The level of relevance, interest and originality of the exhibition.
- The degree of maturity and the quality of the proposal.
- The international nature of the subject.
- The use of a language that understands, with a divulgative approach, exposure.

About the speaker:

📅 22 i 23 de novembre

📍 La Llotja de Mar, Barcelona

- To be a professional working in the space field, in some area related to space, users of space technologies or solutions or scientific disseminators.
- Academic and professional experience in the sector or as users of space sector technologies and solutions.
- The suitability of the suggested topic with the speaker's profile.
